

What Form and Transaction do I use?

There are only four forms: Employment, Personal Data, Separation and Volunteer.

The Personal Data Form allows you to update Demographics, Directory (address, phone, and email), Education and/or Emergency contact information. This form is included in Hire, Rehire and CCH forms automatically.

The Separation and Volunteer forms are all self explanatory. All other transactions will be completed with an Employment form (including leaves).

Not all Actions or Transactions will appear for every payroll. The selections are limited to what is appropriate for each payroll (with more refinements coming).

Employment transaction - please refer to the following chart:

Form	Action	Transaction	Form	Action	Transaction
